

Hau Mitakuye Oyasin (Hello All My Relations)

It is an honor and a privilege to represent and work with my Wood Mountain Lakota First Nation as part of your leadership.

It was great to see and visit with everyone at our AGM and Powwow weekend.

I look forward to working for and representing our Community for another term as Councillor.

I am so proud to see many of our accomplishments with the new water plant and band office.

We strive to fund members with a further education through our post-secondary program; and assist band members with Economic Development monies from our Tribal Council with start-up money for a new business.

We have installed new headstones at all our cemeteries.

Our heavy equipment building is complete and can store our equipment inside.

Our goal is to construct a new addition to our existing Community Centre to house our artifacts and have classrooms where we can begin to learn our Lakota language.

To protect our Community we are in the process of purchasing a larger and more efficient and effective rapid response fire truck.

My experience and knowledge in Agriculture and working with Public Service has been a great contribution to my Chief, Council and Band Members.

I look forward to seeing everyone soon and working together in a supportive way for our Lakota people in our beautiful WMLFM Community.

I humbly ask for your support on October 2, 2024.

Toksa Ake

(I will see you again)

Travis Ogle
